

The City of Wilton provides water, sewer and garbage service. Meters are read around the 15th of each month. Water and sewer are billed based on the total gallons used. At this time garbage is \$20.00 each month for curbside pickup.

The City requires a deposit of \$100 for water service (an additional \$100 deposit is required for electric service). The deposit is refunded after 2 years if all the bills have been paid by the 20th, unless the customer moves before that time. As of 12-1-2022, Wilton City Hall Office hours will be 8:00 AM-4:00 PM.

Bills are sent out at first of each month and are due by the 20th of the month. If the bill is not paid within 12 days of the due date, the customer will be posted and assessed a \$40 posting fee. If other arrangements are needed to pay the bill, please inquire at City Hall or Wilton Municipal. The City has a drop box for payments after normal working hours of Monday-Friday 8:00am-4:00pm. The drop box is located at the bottom of the main entry steps. The City also offers ACH for no fee or debit/credit (with a service fee) options for payment of your utility bill.
